Amrit lobby lounge

Wellness is a lifestyle at Amrit Ocean Resort & Residences, a project years in the making which officially relaunched in Palm Beach on Singer Island this summer. The development totals 351 units (hotel and residences), and includes a 100,000-square-foot space that will house an outdoor spa and wellness amenities like a meditation garden and outdoor yoga studios.

That's not all: the entire project, developed in partnership with ESPA and the Himalayan Institute, is designed around "The Five Pillars:" nutrition, fitness, mindfulness, sleep, and relaxation. Check out these new renderings to see what utter calm looks like.
